It has happened that a man has amounted to more because he had not fond friends in his childhood who thought he had a talent for music. —Atchison Globe.

The street railway makinate had a dream that he was dead and had gone to the bad place. "I have a nice little job for you," said his Satanite majesty. "See those strings over there? You are to hang to them for a million years." With a cry of inutterible despair the magnate awoke, full of good resolves. —Philadelphia Record.

SCOURING YOUR SCALP.

Will Remove the Loose Dandruff Scales.

If your hair is brittle and thinning, you have dandruff. The more scouring of the scalp of the loose scales, won't cure the dandruff; because dandruff is nothing but scales of scalp being thrown up by a pestiferous little germ in burrowing its way to the root of the hair where it saps the vitality, causing falling hair and, in time, baldness. Now you can't stop dandruff nor falling hair, nor prevent baldness, unless you destroy that germ; and the only preparation that can do it is the new scientific discovery, Newbro's Herpicide. In fact no other hair preparation claims to kill the dandruff germ—all of them will clean the scalp; soap and water will do that, but only Newbro's Herpicide gets at the root of the trouble and kills the dandruff germ. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. H. Goodman, druggist, special agent.

Of Mrs. Shute's Accident a Week Ago in Globe.

Brief mention was made in yesterday's paper regarding a serious accident which had befallen Mrs. Walter Shute in Globe a week ago last night. On account of her many friends here the particulars of the accident will be of interest and are as follows to quote the Arizona Star, Belt of April 27: "A most deplorable accident happened to Mrs. G. Walter Shute last Monday evening about 7 o'clock near her home in the east end of town, in which she sustained painful injuries, which very nearly proved fatal.

Mr. and Mrs. Shute had just returned from a horse back ride and Mr. Shute left his wife to come down town. She was met at the gate by her brother, Arthur Small, who came out to take the horse. As he reached up for the bridle, the animal threw his head up and started to run and Mrs. Shute, who was in the act of dismounting, was unable to regain her seat in the saddle and her foot catching in the stirrup she was dragged a distance of about forty feet before her foot became disengaged.

As she fell the horse kicked her in the face, fracturing the jaw at the point of the chin, caving in the lower jaw with the teeth on the left side, knocking out four or five of the upper teeth and cutting a deep gash under the lower lip. There was also a bad bruise behind the left ear. Mrs. Shute fell in front of the residence of Geo. R. Hill who ran out and picked up the maimed form and carried it into the house. Blood was streaming from the wound in the face, from the mouth and both ears. Medical aid was summoned and after a time the injured woman was carried to her home, where she still lies in a semi-unconscious condition.

"It was at first feared that Mrs. Shute's injuries would prove fatal, and while her condition is still serious, her attending physicians are quite hopeful of her recovery, although improvement will necessarily be slow.

A PLEASANT CANTATA.
The cantata which was to have been given Easter Sunday at the Congregational church in the evening but which was postponed on account of the rain took place last Sunday evening. Much had been said regarding it and it had been widely advertised. It is indeed sad to hear that Tempe people have an opportunity of listening to such music as was heard Sunday evening and it speaks well for the home talent that every one of the singers is a resident of our city. Prof. Johnston, under whose direction the cantata was given, as well as the other members of the choir, have worked hard in its preparation and are deserving of great credit for its success.

A NEW BAKERY.
F. H. Rieckhoff of Chicago, Ill., is expected in on this morning's train to take charge of the Hilke bakery. Mr. Rieckhoff is a baker of some thirty years experience and he proposes to put the bakery in better shape than ever before. He would have arrived here sooner but has been detained as have many others in New Mexico on account of the floods. Mr. Rieckhoff had some correspondence with Mr. Hilke regarding the disposition of the bakery before his death. Mr. Rieckhoff is a man here attending the normal and it is partly on that account that he desires to make his home here.

SELLING PIANOS.
I. J. Kelly, representing the Wiley P. Allen Piano company of Phoenix is stopping at the Casa Loma and expects to be there for the next week or ten days for the purpose of placing as many instruments of that kind in this vicinity as possible. At the hotel he has several excellent samples of his kind of piano and is always willing to show them to interested parties. He is accompanied by his wife; both are accomplished musicians and guests at the hotel frequently enjoy selections from them.

A BIG ENGINE.
About the largest thing in traction engines that ever struck this part of the country, arrived here yesterday morning on the M. & P. from California. Little could be learned regarding the exact actual measurement, but it proved that the rear wheels were fifty nine inches wide and the rest of the machine is in proportion. It belongs to the C. E. Edgar company of Los Angeles and will be used in hauling oil to Roosevelt, that company having secured the contract. The A. H. V. company took the contract for supplying the wagons and tanks that will be used and they are expected in any day. The engine will be taken to Mesa which will be the terminus on this end of the line.

MESA**MAY DAY CELEBRATION.**

One of the largest crowds that ever assembled in Mesa was there Saturday to celebrate May day. The Indian band which arrived on the early Santa Fe train, was not long alone for their delightful music brought everybody out and by 10 o'clock there was hardly standing room on Main street and on the lots adjacent to the Consolidated plaza, where the first exercises of the day were to take place.

Promptly at 10 o'clock the band struck up a grand march and there were ushered from the office of the Consolidated a bevy of Mesa and vicinity beauties led by Miss Leona Gibson the May queen, all of them dressed in lovely white and bedecked with flowers. As soon as the queen ascended her throne her maids began a chorus of praise, and crowned her queen of the May. In a few choice words she acknowledged the honor and invited all to enjoy themselves during her reign. She was followed by a song by the twelve maids of honor and as the band struck up another march the maids descended from the wagon and marched to the May pole that had been placed in the lawn of the plaza and proceeded to braid the May pole to the strains of the sweetest music ever heard in Mesa. The scene was a lovely one, and many were the remarks, "who wouldn't celebrate when such a spirit was present?" O. S. Stapley then delivered an address "Why We Celebrate the First of May," and was heartily applauded at its conclusion.

The knights of the round table who were assembled near the float then led in three cheers for the queen of the May and her lovely companions, after which the march was taken to the tournament grounds, led by the Indian school band, following whom were the knights surrounding the queen's float, then the civilians in carriages. The street at the tournament grounds was literally packed with buggies, people on horse back and pedestrians, and it was with considerable trouble that a space was found for the riding of the rings by the knights.

After riding through the lists a few times the knights faced the queen's float and King William (F. T. Pomeroy) delivered the address, the words of greeting to the queen and pledged their undying fealty to her and her company. He then stated the rules of the contest and called the roll of the knights, each responding and read the rules governing the contest. The knights then repaired to the head of the lists and all rode through on a gallop. Then each followed at full speed with lowered lance. During this run the horse of William Rufus (Leo Earl) began pitching with him and three him in the center of the lists dismounting him from further participating in the contest.

The knights then rode through each five times as follows making the following score:
King William (F. T. Pomeroy) 12 thr
Brian De Bois Gilbert (Wal-
lie MacDonald) 17 points
Richard Cour de Leon (Orson
Phelps 12 points
De Bracy (Geo. MacDonald) 11 points
Robin Hood (Orson Vance) 15 points
